2. Introduction

2.1 Objectives and Scope

The objective of this document is to describe the requirements for implementing the RiskTracker risk management solution.

2.2 Purpose of Document

This document will:-

- Outline the hardware requirements.
- Outline the software requirements.

2.3 Acknowledgements

All Trade Marks and Copyrights referred to in this document are acknowledged and recognised.

3. Hardware Requirements

3.1 Minimum Server Specification

Component	Minimum Requirement
Computer and processor	Server with processor speed of 2.5 Gigahertz (GHz) or higher
Memory	1 gigabyte (GB) RAM
Hard disk	100 Mb of available hard disk
Drive	CD-ROM or DVD drive ²
Display	1024x768 or higher resolution monitor
Operating system	Windows 2000 Server or newer
Network Access Speed	100 Megabits per second (Mbps) or higher

3.2 Minimum Workstations Specification

Component	Minimum Requirement
Computer and processor	Workstation with processor speed of 1.8 Gigahertz (GHz) or higher
Memory	512 Megabyte (GB) RAM
Hard disk	30 Mb of available hard disk
Drive	CD-ROM or DVD drive ²
Display	1024x768 or higher resolution monitor
Operating system	Windows 2000 or newer
Network Access Speed	100 Megabits per second (Mbps) or higher

4. Software Requirements

4.1 Minimum Workstation Requirements

Component	Microsoft Windows XP Professional Microsoft Windows Vista (all editions) Microsoft Windows 7 (all editions)
Operating System	All with the latest service pack
Microsoft .NET Framework 3.5	Service pack 1.
Crystal Reports Runtime	Version 10 (Installed during Risk Tracker installation)
Microsoft Data Access Components (MDAC)	Version 2.8
Microsoft Excel	Version 2000 or above (required for automation)
Adobe Acrobat Reader	At least version 6.0

4.2 Minimum Server Requirements

Component	Microsoft Windows XP Professional	Microsoft Windows Server 2000	Microsoft Windows Server 2003
Operating System	With the latest service pack	<ul style="list-style-type: none"> Windows Server 2000 Windows 2000 Advanced Server All with the latest service pack	<ul style="list-style-type: none"> Windows Server 2003 Standard Edition Windows Server 2003 Enterprise Edition Windows Server 2003 Web Edition All with the latest service pack
Microsoft SQL Server	N/A	Version 2000 with Service Pack 3 and configured with Mixed mode security	Version 2000 with Service Pack 3 and configured with Mixed mode security
Microsoft SQL Server Desktop Engine (MSDE)	Version 3A and configured with Mixed mode security	Version 3A and configured with Mixed mode security	Version 3A and configured with Mixed mode security
Microsoft SQL Server 2005 Express Edition	Service Pack 2 and configured with Mixed mode security	Service Pack 2 and configured with Mixed mode security	Service Pack 2 and configured with Mixed mode security
Microsoft SQL Server 2008 Express Edition	Service Pack 1 and configured with Mixed mode security	Service Pack 1 and configured with Mixed mode security	Service Pack 1 and configured with Mixed mode security
